Notes: Rates may not add to totals because of rounding.

The FBI and California Crime Indexes have been temporarily suspended as efforts continue to redefine those measurements.

¹ In 2003, larceny-theft over \$400 was added to the property crime category to give a more representative depiction of crime in California. For additional information, see "Appendix 1, Data Characteristics and Known Limitations."

² Rates are based on annual population estimates provided by the Demographic Research Unit, California Department of Finance (see Table 58).
